9. MESSAGE TELECOMMUNICATIONS SERVICE

9.1. GENERAL

Message Telecommunications Service (MTS) applies to all toll calls made between two or more rate centers that are furnished or made available by the Company over facilities within the state. MTS provides telecommunication beyond the local serving area. MTS charges cover the service furnished between the calling and called stations.

MTS Service is available to customers located within the Company's service area who subscribe to Comcast Local Service as described in this Tariff.

Charges for MTS calls are determined by the class of the call and the duration of the call. The total amount of the call will be rounded to the nearest cent if the computed rate of the call results in a fractional charge.

Charges for MTS calls apply to all intrastate intraLATA and interLATA calls, all times of day, seven days a week. Usage and service charge rates for interstate and international calls are specified in the Comcast Service Guide located at <http://www.comcast.com/tariffs/>.

9.2. REGULATIONS

9.2.1. DESCRIPTION OF SERVICE

MTS is the furnishing of facilities for telecommunication between station lines in different local service areas in accordance with the terms, conditions, and rates specified in this Tariff. The Company does not undertake to transmit messages but furnishes the use of its facilities to its customers for communications.

Customers subscribing to offers specified in Section 5 that include long distance usage must be presubscribed to the Company as their IntraLATA and InterLATA toll provider.

Issued: June 1, 2010

9. MESSAGE TELECOMMUNICATIONS SERVICE

9.2. REGULATIONS (CONT'D)

9.2.2. CLASS OF CALLS

Charges apply according to the class of call the calling party selects as defined below.

A. Dial Station

Dial Station charges will apply when the customer dials the desired telephone number without the assistance of a Company Operator and the call is billed to the calling number. This includes calls forwarded by call forwarding equipment.

The Dial Station class of service also applies when the Operator:

1. Records the calling telephone number for areas without automatic recording equipment.
2. Reaches the called telephone number because of trouble on the network or because dial completion is not available.
3. Places a call for a calling party who is identified as being disabled and is unable to dial the call because of that disability.
4. Reestablishes a dialed call when there is a service fault that interrupts a call after the called person has been reached.

B. Operator Services

1. Operator Station

Operator Station rates apply when the customer places a call with the assistance of a Company Operator or mechanized response system.

2. Person-to-Person

Person-to-Person charges apply when the calling party specifies to the operator a particular person to be reached, or a particular station, department, or office to be reached through a PBX or Centrex attendant. After the called station has been reached, if the called party is unavailable and the calling party requests or agrees to speak to a party other than the party initially specified, the call is still billed as a Person-to-Person call. The calling party is responsible for identifying the party at the called station.

Issued: June 1, 2010

9. MESSAGE TELECOMMUNICATIONS SERVICE

9.2. REGULATIONS (CONT'D)

9.2.3. TIMING OF CALLS

- A. On Dial Station and Operator Station calls, the timing of a call begins when the calling and called stations are connected. Calls are timed in one-minute increments.
- B. On Person-to-Person calls the timing of a call begins when the calling person is connected to a specified person, station, or an agreed alternate.
- C. Chargeable time ends when the connection is terminated at any point.
- D. The timing of a call does not include time lost due to service faults or defects that are reported to the Company.
- E. MTS usage rates are applied on the basis of whole minute intervals. The billing interval is determined by rounding up partial minutes to the next whole minute.
- F. In cases when a message begins in one rate period and ends in another, the price for each minute is the price in effect at the beginning of each minute of usage.

9.2.4. DETERMINATION OF AIRLINE MILEAGE

- A. For mileage sensitive usage rates, mileage bands are based on the airline distance between the measuring point or rate center for the calling point and the measuring point or rate center for the called point. Generally, each city, town, or locality is designated as a rate center and those localities not so designated are assigned a nearby rate center.
- B. The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved. The Company uses the rate centers produced by Bell Communications and Research in the NPA-NXX V&H Coordinates tape and published in NECA Tariff No. 4.

Formula:

The square root of:
$$\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}$$

9. MESSAGE TELECOMMUNICATIONS SERVICE

9.4. DIAL STATION BASIC SCHEDULE RATES

9.4.1. GENERAL

Customers who subscribe to a Local Only Plan, specified in Section 5, preceding, and are not presubscribed to any Long Distance Plan provided by Comcast, or any other carrier, will incur the following charges for intrastate Dial Station calls.

9.4.2. RATE PERIODS

Dial Station Rates vary by Rate Periods. Rate Periods are:

Day(Peak)	7:00 A.M. TO 6:59 P.M. Monday through Friday
Evening(Off-Peak)	7:00 P.M. TO 6:59 A.M. Monday through Friday
Weekend	All Day Saturday and Sunday

9.4.3. INTRALATA DIAL STATION USAGE RATES

The following InterLATA Dial Station Usage Rates apply to calls originating in and terminating in the same LATA. Rates are per minute, or fraction thereof, and apply to initial and additional minutes.

<u>Day (Peak)</u>	<u>Evening (Off-Peak)</u>	<u>Night/Weekend</u>
\$0.13	\$0.12	\$0.11

9.4.4. INTERLATA DIAL STATION USAGE RATES

The following InterLATA Dial Station Usage Rates apply to calls originating in and terminating in different LATAs. Rates are per minute, or fraction thereof.

<u>Day (Peak)</u>	<u>Evening (Off-Peak)</u>	<u>Night/Weekend</u>
\$0.24	\$0.19	\$0.16

Issued: June 1, 2010

9. MESSAGE TELECOMMUNICATIONS SERVICE

9.5. OPERATOR ASSISTED SERVICES

9.5.1. GENERAL

Operator Services rates apply to customers subscribing to MTS Service who engage an operator or a mechanized response system in the completion of MTS calls. A per-call service charge and per-minute usage rate applies to each operator assisted call.

Rates apply to IntraLATA and InterLATA calls.

9.5.2. RATES AND CHARGES

USAGE RATES:

<u>Mileage Band</u>	<u>Day (Peak)</u>	<u>Evening(Off-Peak)</u>	<u>Weekend</u>
