### APPLICATION OF TARIFF

This tariff applies to intrastate Access Service provided by the Company to Customers. (C)

Compensation for the exchange of local traffic is not governed by the rates, terms and conditions set forth in this tariff. To the extent compensation is appropriate, the Company will enter into a mutually binding agreement (subject to the Commission's review and approval, where required) with the requesting company setting forth the terms and conditions of that compensation. Where no such agreement has been entered into, the Company will exchange local traffic on a "bill and keep" basis. To the extent another company demands payment based upon tariffed rates for the transport and termination of local traffic, the Company reserves the right to assess those same rates on a reciprocal basis.

The provision of such services by the Company as set forth in this Tariff does not constitute a joint undertaking with the Customer for the furnishing of any service. (N)  
(N)

The Company's address and telephone number are:

Comcast Phone of Maryland, Inc.  
9315 Largo Drive West  
Largo, Maryland 20774  
Access Customer Service: 720-267-4406

(C)

### EXPLANATION OF SYMBOLS

<b>C</b>	To signify a changed regulation.
<b>R</b>	To signify a reduction in a rate.
<b>I</b>	To signify an increase in a rate.
<b>T</b>	To signify a change in text but no change in rate or regulation.
<b>S</b>	To signify a reissued matter.
<b>M</b>	To signify text or rates relocated without change.
<b>N</b>	To signify a new rate or regulation.
<b>D</b>	To signify a discontinued rate or regulation.
<b>Z</b>	To signify a correction

## TARIFF FORMAT

### A. Page Numbering:

Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.

### B. Page Revision Numbers:

Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc. the Commission follows in the tariff approval process, the most current page number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the page currently in effect.

### C. Paragraph Numbering Sequence:

There are seven levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).
- 2.1.1.A.1.(a).I.

### D. Check Sheets:

When a tariff filing is made with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The price list user should refer to the latest check sheet to find out if a particular page is the most current on file with the Commission.
