3. EXCHANGE SERVICES

3.1 SERVICE CONNECTION CHARGES

3.1.1 SERVICE CONNECTION AND LINE ACTIVATION CHARGES

A. Terms and Conditions

1. Exchange services are offered subject to the availability of Company facilities. Where facilities are not available, service may be offered subject to the rates, terms and conditions applicable to Special Construction as specified in Section 2.
2. The provisions of exchange service at the rates and charges and terms and conditions shown is subject to the provisions of other sections of this Price List.
3. The rates and charges as quoted herein for exchange services entitle the customer to local calls, without toll.
4. Wire center serving areas may be revised and portions of an area transferred to other wire centers as facility requirements change.
5. A residence service may not be part of a hunting sequence that contains business lines.

B. Installment Billing for Residential Nonrecurring Charges

Upon approval of the Company, a residential customer may elect to pay service connection and other nonrecurring charges associated with a service order in monthly installments. When installment billing is requested, all nonrecurring charges associated with a given service order will be included in the calculation of the monthly installment.

C. End User Points of Connection

Services terminate at a Point of Connection (POC) established by the Company. The POC will ordinarily be located in the same building as the customer's or user's premises; however, a customer may elect to be served by a POC in a different building, in which case the customer is responsible for providing or obtaining, at its own expense, the necessary wire or cable to connect its premises to the POC. In a multi-tenant building, the POC will ordinarily be established in a common area of the building such as an equipment room or wire closet. Customers may connect their transmission facilities, cabling, wiring or terminal equipment to the Company's network at the POC.

3.1 SERVICE CONNECTION CHARGES (Cont'd)

3.1.1 SERVICE CONNECTION AND LINE ACTIVATION CHARGES

D. Description of Charges

A Service Connection Charge or Line Activation Charge applies when a customer requests establishment of new service. The requirement to install certain facilities or equipment, or the presence of such facilities or equipment, will determine whether the Service Connection Charge or the Line Activation Charge will apply.

1. The Service Connection Charge applies per occurrence for the initial or subsequent installation of broadband facilities and equipment, and to any change of location of such facilities and equipment.
2. The Primary Line Activation Charge applies per occurrence where existing broadband facilities and equipment (with sufficient capacity to meet the activation requirement) are available. Where existing facilities are not available, a Service Connection Charge applies in lieu of the Primary Line Activation Charge.
3. The Additional Line Activation Charge applies per occurrence for additional lines where existing broadband facilities and equipment (with sufficient capacity to meet the activation requirement) are available. Where existing facilities are not available, a Service Connection Charge applies. The Line Activation Charge will be waived if the Service Connection Charge or Primary Line Activation Charge applies.
4. The Service Dispatch Charge applies for any subsequent request to add or modify facilities after initial installation.

3.2.7 PRIMARY INTEREXCHANGE CARRIER CHANGE CHARGE

A. Description

Presubscription is an arrangement whereby an end user may select and designate to the Company Inter/IntraLATA Interexchange Carriers (ICs) to access, without an access code, for long distance calls. These ICs are referred to as the end user's Primary Interexchange Carriers (PICs).

B. Regulations

1. Pursuant to the Equal Access Plan filed with the Commission, each residential customer may select one PIC for IntraLATA long distance service and the same or another PIC for InterLATA service. A Change Charge does not apply for the initial Carrier selection(s).
2. Subsequent to the installation of Local Exchange Service, and after the end user's initial PIC selection(s), the following nonrecurring charge applies for any Carrier-selection modification. This charge is billed to the Local Exchange Service customer as follows:
 - Customers who change their IntraLATA or their InterLATA PIC (but not both) will be assessed a single charge.
 - Customers who simultaneously change IntraLATA and InterLATA PICs to a single Carrier will be assessed a single charge.
 - Customers who simultaneously change IntraLATA and InterLATA PICs to separate Carriers will be assessed a charge per Carrier.

3.3 BASIC EXCHANGE SERVICE

3.3.1 GENERAL

A. Description

1. Basic Exchange Service provides a connection to the Company's switching network which enables the customer to:
 - Place and receive calls from other access lines on the public switched telephone network;
 - Access the Company's local calling service;
 - Access the operator service and business office for service related assistance; access toll-free telecommunications services such as 800/888 NPA; and access 911 service for emergency calling; and
 - Access the service of providers of Interexchange service. A customer may presubscribe to such provider's service to originate calls on a direct dialed basis or to receive 800/888 service from such provider, or may access a provider on an ad hoc basis by dialing the provider's Carrier Identification Code (e.g. 10XXX).
 - Originate calls to the Telecommunications Relay Service (TRS) which enables hearing or speech-impaired persons using Telephone Devices for the Deaf (TDDs) or similar devices to communicate with the hearing population not using TDDs and vice versa. A customer will be able to access the state provider to complete such calls.

- a. The Comcast Connections Any Distance plan provides the residential customer with one access line, unlimited local calling, the Value Pack Optional Feature Package described in 3.3.3.K.3, following, and unlimited direct-dialed domestic long distance calling. Additional access lines and custom calling features may be ordered by the customer on an ala carte basis at an additional charge.
- b. To enroll in the Comcast Connections Any Distance plan, the customer must subscribe to Comcast as their primary interLATA carrier, primary intraLATA carrier, and local exchange carrier.
- c. Service is limited to residential voice applications and the use of service is limited to the customer, members of the customer's household, and occasional guests. The use of the service for commercial applications, resale, internet access or telemarketing is prohibited. In addition, the use of auto dialers, polling devices, remote access to call forwarding, three-way calling (other than incidental usage) and other devices and/or dialing arrangements with the intent to avoid payment of otherwise applicable long distance charges is prohibited.
- d. Unused minutes are not transferable and may not be accumulated from one month to another. Such unused minutes in any month revert to the Company, and in no event shall Comcast be obligated to provide any credit or monetary sum to the customer.
- e. Due to the bulk nature of the Any Distance Plan usage, call detail is not automatically provided on the monthly billing statement. Upon customer request, such detail will be provided under separate cover.

M. Custom Calling Features

(M,T)

Optional Custom Calling Features are available with Residence Basic Exchange Service. Customers may order features individually or as part of a feature package, as shown below. Monthly recurring charges associated with features are applied in addition to any other applicable charges.

(M)

Anonymous Call Rejection

Allows customer to reject any call that has blocked the customer's Caller ID information by dialing a code and the telephone number(s) of calls to be rejected. Any call attempts to the customer from these numbers will be prevented from terminating to the customer.

Call Forwarding – Busy Line

Allows a customer to have incoming calls forwarded to a predetermined number if the called number is busy. The customer assumes responsibility for all calling charges generated by the use of this feature.

Call Forwarding – Don't Answer

Allows a customer to have incoming calls forwarded to a predetermined number if the customer does not answer after a preset number of ringing cycles. The customer assumes responsibility for all calling charges generated by the use of this feature.

Call Forwarding Remote Access

Allows a customer to activate or deactivate Call Forwarding Variable from a line other than their base station line. The customer uses a Personal Identification Number (PIN) to access Call Forwarding with Remote Access.

Call Forwarding Selective

Allows a customer to forward only select calls to another telephone number. The customer assumes responsibility for all calling charges generated by the use of this feature.

Call Forwarding Variable

Enables the customer to forward all incoming calls to another number by dialing a code plus the number to receive the call. The customer assumes responsibility for all calling charges generated by the use of this feature.

M. Custom Calling Features (Cont'd)

(M,T)

Call Forwarding

(M1,T)

Enables the customer to forward incoming calls to another number by dialing a code, plus the number to receive the call.

(M1)

(M1)

Call Return

(M)

Allows a customer to dial a code that will cause the feature to automatically redial the number of the last incoming call to that line, whether the call was answered or not. The customer does not have to know the number of the calling party. If the calling party's number is blocked by the calling party, the service will not return the call. If the called number is busy, the feature will redial the called number for a limited period of time. A tone alerts the customer when the called line is available.

Call Return Blocking

This feature blocks the customer's capability to use the Call Return pay-per-use feature.

Call Screening

Allows a customer to dial a code enabling the customer to not receive calls from a preassigned list of telephone numbers.

Call Trace

Allows the customer to dial a code to automatically request that the Company record a caller's originating telephone number and the date and time of the call as well as the date and time of the customer initiated trace. The Company will hold the traced telephone number for release to the appropriate law enforcement personnel.

Call Waiting

When a customer is talking on the telephone, a short spurt of tone signals the customer that an incoming call is waiting. The tone is heard only by the Call Waiting customer, while the incoming caller hears a regular ringing signal. Flashing the switchhook holds the first call while the second is answered.

M. Custom Calling Features (Cont'd)

(M,T)

Caller ID

(M)

Allows a Caller ID display unit to display the name and telephone number of incoming calls.

Caller ID Blocking Per Call

Enables a customer to control the disclosure of the customer's name and/or telephone number to a subscriber of Caller ID by temporarily changing the public/private status indicator of the telephone number. A customer must dial a code before each call to change the indicator from public to private. "Public Status" allows delivery of the name and/or telephone number. "Private Status" prevents delivery of the name and/or telephone number.

Caller ID Blocking Per Line

Enables a customer to control the disclosure of the customer's name and/or telephone number to a subscriber of Caller ID on all calls made from the customer's line. This feature may be de-activated at any time by the customer.

Caller ID with Call Waiting

Enables a customer to control the disposition of incoming calls while in an off-hook condition, via a visual display unit. A customer provided visual display unit is required to interact with this feature. The customer must subscribe to Caller Identification-Name and Number.

(M)

Custom Code Restriction

(T)(M1)

Allows a customer to block any of the following types of calls:

- Operator assisted calls,
- International and direct-dialed long distance calls,
- N11 calls (e.g. 411 and 511), and
- 900/976 calls.

M. Custom Calling Features (Cont'd)

(M,T)

Custom Ring

(M1)

If an additional telephone number is assigned to the customer's telephone line, all calls made to the additional number will ring differently from the other number.

Distinctive Ring

Differentiates incoming calls from up to ten customers preselected telephone numbers by signaling the customer with a distinctive ringing pattern.

(M1)

LD Alert

(M)

This feature allows call waiting and ringing operations to provide a distinctive ring or call waiting tone to announce incoming Long Distance calls. LD Alert is available at no additional charge to customers who also subscribe to Call Waiting.

Repeat Dialing

Allows a customer to dial a code that will cause the feature to automatically redial the last number the customer dialed. If the called number is busy, the feature will redial the called number for a limited period of time. A tone alerts the customer when the called number becomes available.

Repeat Dialing Restriction

This feature blocks the customer's capability to use the Repeat Dialing pay-per-use feature.

Speed Dial 8

Permits a station line user to dial selected numbers by using fewer digits than normally required. This is accomplished by dialing one digit instead of seven to ten digits. Up to eight numbers may be stored in memory.

Speed Dial 30

Permits a station line user to dial selected numbers by using fewer digits than normally required. This is accomplished by dialing two digits instead of seven to ten digits. Up to 30 numbers may be stored in memory.

Three-Way Calling

Enables a customer to add a third party on an established local or long distance connection without operator assistance.

M. Residential Telephone Assistance Plans

1. Description

TAP is a state sponsored assistance program under Minnesota Statutes Chapter 237 and is designed to make telephone service accessible to qualifying low-income residential households. Through this program, eligible households will receive a monthly discount on their telephone service.

2. Eligibility

a. The TAP credit is available to residential customers who meet the following eligibility requirements.

(1) This discount applies on a single line at the principal place of residence for the applicant.

(2) Applicant signs document certifying under penalty of perjury that the consumer has income at or below 135 percent of the Federal Poverty Guidelines or receives benefits from at least one of the following programs:

- Medicaid/Medical Assistance
- Food Support/Food Stamps
- Supplemental Security Income
- Federal Public Housing Assistance or Section 8
- Low Income Home Energy Assistance Program (LIHEAP)
- National School Lunch Program's Free Lunch Program
- Temporary Assistance for Needy Families (Minnesota Family Investment Program, or MFIP)

(3) Individuals who do not qualify under any of the above but live on a federally recognized reservation may qualify if the applicant signs a document certifying under penalty of perjury that the applicant receives benefits from at least one of the following programs:

- Bureau of Indian Affairs General Assistance;
- Tribally administered Temporary Assistance for Needy Families;
- Head Start (only for those meeting its income qualifying standard);
- National School Lunch Program's Free Lunch Program

(4) Applicant agrees to notify the carrier if that consumer ceases to participate in any of the above listed federal assistance programs.

(M,T)

3. Eligibility Revocation

(M)

If the Company discovers that conditions exist that disqualify the recipient of TAP, the support will be discontinued. The customer will be billed retroactively to whichever is the most recent of the dates TAP assistance commenced or the recipient no longer qualified for the service (not to exceed 12 months).

4. Terms and Conditions

- a. The TAP credit will begin at the earliest possible billing cycle but not later than the second billing cycle after the date the TAP application is received by the Company.
- b. Nonrecurring charges shall not apply to establish TAP credit on existing service.
- c. When the Company is notified by the Minnesota Department of Human Services that a customer enrolled in the Telephone Assistance Plan no longer meets the eligibility requirements, credits to that customer's monthly charges shall cease.
- d. When a customer enrolls in TAP, the Company is reimbursed for the cost of the service order activity through the Telephone Assistance Plan Surcharge Fund.

5. Funding

The Telephone Assistance Plan is funded through a monthly surcharge on residence and business access lines subject to the 911 surcharge pursuant to Minnesota Rules, part 7817.0300. The Federal Lifeline program is funded through the FCC's universal service program.

N. Link-Up Service Connection Program

(M,T)

1. Description

(M)

- a. The Link-up Service Connection Program is a federally sponsored lifeline assistance program designed to make telephone service accessible to low-income residential households who are currently not on the public switched network. Through this program, the nonrecurring charge for the initial installation of the main access line will be discounted to the applicant at a rate of 50 percent, not to exceed \$30.00.

2. Eligibility

Applicants for Link-up must meet the following qualifications:

- a. Applicant has not been claimed as a dependent for Federal Income Tax purposes. Requirement is waived for applicants who are 60 years of age or older.

B. Toll Restriction

1. This service provides customers with the ability to block outbound long distance calling from their access line.
2. Regulations
 - a. A monthly recurring charge will apply for each line restricted, except that Toll Restriction will be provided at no charge to subscribers of Minnesota Telephone Assistance Program.
 - b. When the Toll Restriction option is activated, direct dialed long distance calls from the customer's access line will be blocked. These blocked calls will be directed to a network message.
 - d. The activation of the Toll Restriction option does not prevent customers from placing long distance calls from the access line utilizing an Operator Service Provider that can be reached through the use of a local call. In addition, this option does not prevent customers from placing operator-assisted or calling card calls to a long distance number from a line that is not blocked.
 - e. The following types of calls will be blocked:
 - 1+ 7 digit long distance
 - 1+ 10 digit long distance.
