
SECTION 5 – SUPPLEMENTAL SERVICES

5.1 CUSTOM CALLING SERVICE

5.1.1 GENERAL

The features in this section are made available as part of the Company's single rate plan, as further described in Section 6.

5.1.2 DESCRIPTION OF FEATURES

Call Waiting/Cancel Call Waiting - Call Waiting provides a tone signal to indicate to a customer already engaged in a telephone call that a second caller is attempting to dial in. It will also permit the customer to place the first call on hold, answer the second call and then alternate between both callers. Cancel Call Waiting (CCW) allows a Call Waiting (CW) customer to disable CW for the duration of an outgoing telephone call. CCW is activated (i.e., CW is disabled) by dialing a special code prior to placing a call, and is automatically deactivated when the customer disconnects from the call.

Call Waiting With Caller ID with Name and Number provides customers who subscribe to Caller ID Deluxe and Call Waiting with the ability to see the telephone number and name of a second incoming call. Call Waiting ID Deluxe may require additional customer provided equipment.

Three Way Calling/Call Hold - The Three Way Calling feature allows a customer to add a third party to an existing two-way call and from a 3-way call. The call must have been originated from outside the station group and terminate to a station within the station group. The Call Hold feature allows a customer to put any in-progress call on hold by flashing the switchhook and dialing a code. This frees the line to allow the customer to make an outgoing call to another number. Only one call per line can be on hold at a time. The third party cannot be added to the original call.

SECTION 5 – SUPPLEMENTAL SERVICES

5.2 ENHANCED CALLING SERVICES

5.2.1 GENERAL

The company offers, as part of its single rate plan, the following enhanced calling services: Caller ID, Caller ID Blocking, and Caller ID Deluxe.

For Measured Business Service customers, the company offers, as optional features: Caller ID, Caller ID Blocking, and Call Trace. Monthly Recurring Rates for these features are found in the Measured Business Service Rate Schedule.

5.2.2 DESCRIPTION OF FEATURES

Caller ID - The Caller ID feature allows a customer to see a caller's name and number previewed on a display screen before the call is answered allowing a customer to prioritize and or screen incoming calls. Caller ID records the name, number, date and time of each incoming call - including calls that aren't answered by the customer. Caller ID service requires the use of specialized CPE not provided by the company. It is the

Caller ID Blocking This feature allows the customer to block the display of their name and telephone number to the station they are calling on a per line or per call basis. When the calling party uses either of these blocking capabilities, the called station will receive an indication on the Caller ID equipment that the display of the calling telephone number has been suppressed. A per line Caller ID Blocking customer will be able to pass the calling telephone number by dialing a separate special code prior to placing a call. *82 activates this feature and 1182 deactivates this feature. There is no charge for this feature.

Caller ID Deluxe This features displays the names and numbers of callers. It allows customers to manage incoming calls by either taking the call immediately or at a later time. Calls from people with private numbers will display "Private Caller" on the ID unit. The service is only available on a monthly subscription basis.

Call Trace - allows the customer to initiate an automatic trace of the last call received. After receiving a call that is to be traced, the customer dials a code and the traced number is automatically sent to the Company. The customer will not receive the telephone number of the party who called. The Company will hold the traced telephone number for release to the appropriate law enforcement personnel. The customer will be assessed a charge per successful trace.

SECTION 5 – SUPPLEMENTAL SERVICES

5.9 DIRECTORY SERVICE

5.9.1 DIRECTORY LISTINGS

The Company will, unless otherwise instructed by the Customer, arrange for the listing of the Customer's main billing telephone number in the directory(ies) published by the dominant Local Exchange Carrier in the area at no additional charge. At the Customer's option, the Company will arrange for additional listings at the following rates: (C)

5.9.2 NON-PUBLISHED SERVICE

With Non-published service, the Customer's telephone number will be omitted from published Verizon directories along with the Company's and Verizon's Directory Assistance Service. When a telephone listing is non-published, a name will not be found in the Verizon's published directory. Persons requesting the Customer's telephone number, from Verizon or Company Directory Assistance, will hear the following recorded message "At the customer's request, the listing is not published." Non-published Service will not prevent the identification of the Customer's telephone number through Caller ID or Call Return Services.

5.9.3 NON-LISTED SERVICE

With the Company's Non-Listed Service, the Customer's telephone number will be omitted from the Directory Assistance Database. Non-Directory Listed Service will not prevent someone from learning the Customer's number through Caller ID Service or from calling the Customer back through Call Return Service.
