### 7.1. CUSTOM CALLING FEATURES (CONT'D)

#### 7.1.1. OPTIONAL FEATURES (CONT'D)

##### E. Call Return

This feature allows a customer to recall the last incoming call by dialing a preset code. If the called number is busy, automatic processing of the call continues for up to 30 minutes until both lines are idle unless the customer dials the deactivation code. Calls returned outside the local calling area are subject to toll charges. This feature is available on a monthly subscription or a pay-per-use basis. Customers who choose the pay-per-use option are billed per activation, regardless of whether or not the attempted call is completed.

##### F. Call Return Blocking

This feature blocks the Customer's capability to use the Call Return pay-per-use feature.

##### G. Call Screening

This feature permits customers to designate up to 12 telephone numbers from which incoming calls will be automatically completed to a prerecorded announcement circuit which will indicate that calls are not being taken at that time.

##### H. Call Trace

Call Trace allows the customer to initiate an automatic trace of the last call received. After receiving a call that is to be traced, the customer dials a code and the traced number is automatically sent to the Company. The customer will not receive the telephone number of the party who called. The Company will hold the traced telephone number for release to the appropriate law enforcement personnel.

##### I. Call Waiting

The Call Waiting feature enables a customer already on a call to be notified of another call by the sound of a Call Waiting tone. The customer may place the existing call on hold and answer the new call. The Call Waiting feature may be canceled by dialing a preset code.

**7.4. OPERATOR ASSISTED SERVICES**

**7.4.1. GENERAL**

A service charge will apply to calls placed with the assistance of a Company Operator or mechanized response system. Various billing arrangements are available with Operator Assisted Service including Operator Station (Collect, Billed to Third Number, Other Operator Assisted), and Person-to-Person.

Rates and charges for the services described in this Section will be credited to the customer for calls completed to a wrong number, for incomplete connections, or for calls with unsatisfactory transmission.

**7.4.2. OPERATOR SERVICES**

A. Operator Station

An Operator Station service charge applies when calls are completed with the assistance of a Company Operator, except as specified for Person-to-Person calls. Operator service charges apply to any call involving an operator unless specifically excluded in this Tariff.

(T)  
(T)

Customers who cannot physically dial a call can qualify for an Operator Assisted exemption which provides the customer with operator assistance at a direct dialed rate without a service charge. No application or certification is required for this program; however, the customer must request this exemption. This exemption will apply where billing capability for application of the exemption exists.

B. Person-to-Person

Person-to-Person charges apply when the calling party specifies to the operator a particular person to be reached, or a particular station, department, or office to be reached through a PBX or Centrex attendant. After the called station has been reached, if the called party is unavailable and the calling party requests or agrees to speak to a party other than the party initially specified, the call is still billed as a Person-to-Person call. The calling party is responsible for identifying the party at the called station.
