2. The reception of signals by customer-provided equipment.

The extension of such allowances for interruption shall be the sole remedy of the Customer and the sole liability of the Company. The Company will not be liable for any direct, indirect, incidental, special, consequential, exemplary or punitive damages to the Customer as a result of any Company service, equipment or facilities, or the acts or omissions or negligence of the Company's employees or agents. (T)
- B. The Company shall not be liable for any delay or failure of performance or equipment due to causes beyond its control, including but not limited to: acts of God, fire, flood, explosion or other catastrophes; any law, order, regulation, direction, action, or request of the United States Government, or of any other local governments having or claiming jurisdiction over the Company, or of any department, agency, commission, bureau, corporation, or other instrumentality of any one or more of these federal, state, or local governments, or of any civil or military authority; national emergencies; insurrections; riots; wars; unavailability of rights-of-way or materials; or strikes, lockouts, work stoppages, or other labor difficulties. 2. GENERAL REGULATIONS

2.1. UNDERTAKING OF THE COMPANY (CONT'D)

2.1.5. LIABILITY OF THE COMPANY (CONT'D)

- E. The Company does not guarantee nor make any warranty with respect to installations it provides for use in an explosive atmosphere. The Customer indemnifies and holds the Company harmless from any and all loss, claims, demands, suits, or other action, or any liability whatsoever, whether suffered, made, instituted, or asserted by any other party or person(s), and for any loss, damage, or destruction of any property, whether owned by the Customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal presence, condition, location, or use of any installation so provided. The Company reserves the right to require each Customer to sign an agreement acknowledging acceptance of the provisions of this Section 2.1.5.E as a condition precedent to such installations. (T)
- F. The Company is not liable for any defacement of or damage to customer premises resulting from the furnishing of services or equipment on such premises or the installation or removal thereof, unless such defacement or damage is caused by negligence or willful misconduct of the Company's agents or employees. (T)
- G. The Company shall be indemnified, defended, and held harmless by the Customer against any claim, loss or damage arising from the Customer's use of services involving claims for libel, slander, invasion of privacy, or infringement of copyright arising from the Customer's own communications. (T)
- H. The entire liability for any claim, loss, damage or expense from any cause whatsoever shall in no event exceed sums actually paid to the Company by the Customer for the specific services giving rise to the claim. No action or proceeding against the Company shall be commenced more than one year after the service is rendered. (T)
- I. The Company makes no warranties or representations, express or implied either in fact or by operation of law, statutory or otherwise, including warranties of merchantability or fitness for a particular use, except those expressly set forth herein. Approval of limitation of liability language by the PUCO does not constitute a determination by the Commission that the limitation of liability imposed by the Company should be upheld in a court of law. Approval by the Commission merely recognizes that since it is a court's responsibility to adjudicate negligence and consequent damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause. 2.2.3. DETERMINATION OF JURISDICTION

- A. When ordering Switched Access Service, the Customer may be required to provide a projected PIU factor, which may be subject to audit by the Company. Where jurisdiction can be determined from the call detail, the Company will develop a projected PIU factor from the call detail which will be used to bill the Customer. (C)
- B. The Company will use the jurisdictional report provided by the Customer, or, in the absence of such report, the Company projected PIU factor developed from the call detail, to bill all intrastate rates and/or nonrecurring charges until the Company receives a revised report from the Customer or updates the Company projected PIU factor developed from the call detail.
- C. The Customer shall keep sufficient detail from which the PIU can be ascertained for at least 18 months and upon request of the Company make the records available for inspection. Such a request will be initiated by the Company no more than once per year at the Company's expense. The Customer shall supply the data within thirty (30) calendar days of the Company request.

Except as set forth in B., preceding, where jurisdiction can be determined from the recorded message detail, the revised report will serve as the basis for the next three months billing and will be effective on the bill date in the following month (i.e., February, May, August, and November) for that service. No prorating or back billing will be done based on the report. If the Customer does not supply the report, the Company will assume the percentage to be the same as that provided in the last quarterly report. 2.5.2. NOTIFICATION OF SERVICE-AFFECTING ACTIVITIES

The Company will provide the Customer reasonable notification of service-affecting activities that may occur in normal operation of its business. Such activities may include, but are not limited to, equipment or facilities additions, removals or rearrangements and routine preventative maintenance. Generally, such activities are not specific to an individual Customer but affect many customers' services. No specific advance notification period is applicable to all service activities. The Company will work cooperatively with the Customer to determine the reasonable notification requirements. With some emergency or unplanned service-affecting conditions, such as an outage resulting from cable damage, notification to the Customer may not be possible. (T)

2.7. APPLICATION OF RATES AND CHARGES

The regulations set forth in this section govern the application of rates for services contained in other sections of this Tariff.

2.7.1. MEASURING ACCESS MINUTES

Customer traffic will be measured in minutes of use by the Company at its End Office, Trunk Gateway, or functionally equivalent locations (e.g. media gateways, soft switches). Originating and terminating calls will be measured (i.e., recorded) by the Company to determine the basis for computing chargeable access minutes. Access minutes or fractions thereof are accumulated over the billing period and are then rounded up to the nearest access minute.

2.7. APPLICATION OF RATES AND CHARGES (CONT'D)

2.7.2. RATES BASED UPON DISTANCE

Where the charges for service are specified based upon distance, the following rules apply:

- A. Distance between two points is measured as airline distance. In the case of distance measurement for tandem transport, the two points are the access tandem and the Company's End Office, Trunk Gateway, or functionally equivalent location (e.g. media gateway, soft switch). Their measurement points are a set of geographic "V" (vertical) and "H" (horizontal) coordinates. (C)
- B. The airline distance between any two points is determined as follows: (T)
 - 1. Obtain the "V" and "H" coordinates for each point.
 - 2. Compute the difference between the "V" coordinates of the two points; and the difference between the two "H" coordinates. (T)
 - 3. Square each difference obtained in step (2) above.
 - 4. Add the square of the "V" difference and the square of the "H" difference obtained in step (3).
 - 5. Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained.
 - 6. Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

This is the airline mileage.

Formula:

$$\sqrt{\frac{|v_1 v_2|^2 + |h_1 h_2|^2}{10}}$$

- C. The airline mileage is used to determine the Switched Access Service Common Mileage rates as set forth in Section 3.

2.7. APPLICATION OF RATES AND CHARGES (CONT'D)

2.7.3. NONRECURRING CHARGES

Nonrecurring charges are one-time charges that apply for a specific work activity (i.e., installation or service rearrangements).

A. Installation of Service

Nonrecurring charges apply to each Access Service installed. For Switched Services ordered on a per trunk basis, the charge is applied per trunk. For Switched Services ordered on a busy hour minutes of capacity basis, the charge is also applied on a per trunk basis but the charge applies only when the capacity ordered requires the installation of an additional trunk(s).

B. Service Rearrangements

All changes to existing services other than changes involving administrative activities only will be treated as a discontinuance of the existing service and an installation of a new service. The nonrecurring charge described in A., preceding, will apply for this work activity. Moves that change the physical location of the point of termination are described below.

1. Moves Within the Same Building

When the move is to a new location within the same building, the charge for the move will be an amount equal to one half of the nonrecurring charge for the capacity affected. There will be no change in the minimum period requirements.

2. Moves to a Different Building

Moves to a different building will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply. New minimum period requirements will be established for the new service. The Customer will also remain responsible for satisfying all outstanding minimum period charges for the discontinued service.

2.9. BILLING AND PAYMENT

The Company shall bill on a current basis all charges incurred by and credits due to the Customer. The Company shall bill in advance charges for all services provided during the ensuing billing period except for services billed on a per usage basis.

(C)
|
(C)

Billing shall be based on usage as determined by call detail. When call detail is unavailable, bills shall be based on estimated PIU as described in Section 2.2.3.

(N)
(N)

All bills for service provided to the Customer by the Company are due (payment date) within 30 calendar days of the bill date and are payable in immediately available funds. If such payment due date would cause payment to be due on a Saturday, Sunday or Legal Holiday, payment for such bills shall be due from the Customer as follows:

(T)
(C)

(T)

If such payment due date falls on a Sunday or on a Legal Holiday, the payment due date shall be the first non-Holiday date following such Sunday or Legal Holiday. If such payment due date falls on a Saturday or on a Legal Holiday that is observed on Tuesday, Wednesday, Thursday or Friday, the payment due date shall be the last non-Holiday day preceding such Saturday or Legal Holiday.

When a Customer's check is not honored by the financial institution and the check is returned to the Company due to "Insufficient Funds" in the Customer's account, or for similar reasons, a charge of twenty-five dollars (\$25.00) shall apply, unless the Customer can establish that the charge should not be assessed.

(T)
(T)
(T)

A late payment charge of 1.5% per month will be applied to charges not paid by the due date. The late payment charge will not be applied to previous late payment charges that have been assessed but not yet been paid for, but will apply to the accumulated services for which the Customer is in arrears. Late payment charges will be applied without discrimination.

2.9. BILLING AND PAYMENT (CONT'D)

2.9.1. TAXES

The Customer is responsible for the payment of all state, local and E911 taxes, surcharges, utility fees, or other similar fees for which the end user is directly responsible and that may be levied by a governing body or bodies in conjunction with or as a result of a service furnished under a tariff on file with the Public Utilities Commission of Ohio. These charges may appear as separate line items on the Customer's bill, as opposed to being included in the rates contained in a tariff. Any such line item charges will be reflected in the Company's tariff. The Company shall not assess separately any taxes, fees or surcharges, other than government-approved sales taxes imposed directly on the end users, without seeking Commission approval under the appropriate local competition procedures required by the Commission. The Company shall comply with Commission procedures by sending notice to all Customers informing them of the new line item charges. (T)

2.9.2. CLAIMS AND DISPUTES

In the event that a billing dispute occurs concerning any charge billed to the Customer by the Company, the Customer must submit a documented claim for the disputed amount. The Customer will submit all documentation as may reasonably be required to support the claim. All claims must be submitted to the Company within 120 days of receipt of billing for that service. If the Customer does not submit a claim as stated above, the Customer waives all rights to filing a claim thereafter. Upon notification of a dispute, the Company shall undertake an investigation of the disputed charges, per O.A.C. 4901:1-7. The Customer must pay all undisputed charges by the applicable due date. After filing a claim for disputed charges with the Company, the Customer may be required to place all disputed amounts into a U.S.-based, interest bearing escrow account with a third party escrow agent, with costs paid for by the disputing party. (T)

All disputes between the Company and the Customer that cannot be settled through negotiation may be resolved by the Public Utilities Commission of Ohio. (T)

2.9. BILLING AND PAYMENT (CONT'D)

2.9.3. PAYMENT OF DEPOSITS

To safeguard its interests, the Company may require a Customer to make a deposit to be held as a guarantee for the payment of charges. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills on presentation. The deposit will not exceed an amount equal to:

- two month's charges for a service or facility which has a minimum payment period of one month; or
- the charges that would apply for the minimum payment period for a service or facility which has a minimum payment period of more than one month; except that the deposit may include an additional amount in the event that a termination charge is applicable.

A deposit may be required in addition to an Advance Payment.

When a service or facility is discontinued, the amount of a deposit, if any, will be applied to the Customer's account and any credit balance remaining will be refunded. Before the service or facility is discontinued, the Company may, at its option, return the deposit or credit it to the Customer's account. If the amount of the deposit is insufficient to cover the balance due to the Customer's account, the Company retains the right to collect any amounts owing after the deposit has been applied plus any costs related to the collection of any remaining balance.

Deposits held will accrue interest at a simple interest rate equal to the rate applicable for the late payment charge set forth in 2.9, preceding. Interest will not accrue on any deposit after the date on which reasonable effort has been made to return it to the Customer.

2. GENERAL REGULATIONS

2.9. BILLING AND PAYMENT (CONT'D)

2.10. SPECIAL CONSTRUCTION (CONT'D)

- B. Where the Company furnishes a facility or service requiring special construction, charges will be determined by the Company and may include: (1) non-recurring charges; (2) recurring charges; (3) usage charges; (4) termination liabilities; or (5) combination thereof.
- C. Rates and charges for special construction shall be determined and presented to the Customer for its approval prior to the start of construction. No construction will commence until and unless the Customer accepts in writing the rates and charges as presented by the Company.

D. Basis for Cost Computation

The costs referred to in this 2.10 may include one or more of the following items to the extent they are applicable:

1. Costs to install the facilities to be provided including estimated costs for the rearrangements of existing facilities. These costs include:
 - a) Equipment and materials provided or used;
 - b) Engineering, labor and supervision;
 - c) Transportation; and
 - d) Rights of way and/or any required easements.
2. Cost of maintenance;
3. Depreciation on the estimated cost installed of any facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage;
4. Administrative expenses, taxes on the basis of reasonable average cost for these items;
5. License preparation, processing and related fees;
6. Any other identifiable costs related to the facilities provided; or
7. An amount for return and contingencies.

2.10. SPECIAL CONSTRUCTION (CONT'D)

D. Termination of Liability

To the extent that there is no other requirement for use by the Company, a termination liability may apply for facilities specially constructed at the request of a customer.

1. The period on which the termination liability is based shall be the full term of the contract between the Company and the Customer.
2. The amount of the maximum termination liability is equal to the estimated amounts (including return) for:
 - a. Costs to install the facilities to be provided including estimated costs for the rearrangements of existing facilities. These costs include:
 - Equipment and materials provided or used;
 - Engineering, labor and supervision;
 - Transportation; and
 - Rights of way and/or any required easements.
 - b. License preparation, processing and related fees;
 - c. Cost of removal and restoration, where appropriate; and
 - d. Any other identifiable costs related to the specially constructed or rearranged facilities.
3. The termination liability method for calculation of the unpaid balance of a term obligation is obtained by multiplying the sum of the amounts determined as set forth above by a factor related to the unexpired period of liability and the discount rate for return and contingencies. The amount determined shall be adjusted to reflect the re-determined estimated net salvage, including any reuse of the facilities provided. This amount shall be adjusted to reflect applicable taxes.

2.11. NON-ROUTINE INSTALLATION

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in hazardous locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but at the Customer's request extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.
