3. Service is limited to residential voice applications and the use of service is limited to the customer, members of the customer's household, and occasional guests. The use of the service for commercial applications, resale, internet access or telemarketing is prohibited. In addition, the use of auto dialers, polling devices, remote access to call forwarding, three-way calling (other than incidental usage) and other devices and/or dialing arrangements with the intent to avoid payment of otherwise applicable long distance charges is prohibited. Participation may be terminated for customers who utilize the service in a manner or for a purpose other than those described herein.
4. Due to the bulk nature of the usage, call detail is not provided on the monthly billing statement. However, upon customer request, such call detail will be provided under separate cover. Unused minutes are not transferable and may not be accumulated from one month to another. Unused minutes in any month revert to the Company. In no event shall the Company be obligated to provide any credit or monetary sum to the customer.
5. The Company will undertake periodic reviews of traffic on its network to determine appropriate use of this calling plan. Indicators of inappropriate usage may include call origination, call destination, call holding times, frequency of calls, and other calling-pattern data. Where the Company (at its sole discretion) determines that a customer's calling patterns indicate usage that is not residential in nature, the customer will be contacted and invited to amend their use of the service or select a service more appropriate to their needs. Subsequent to that notification, if a customer continues to use the service in an inappropriate manner, the Company will temporarily restrict the customer's ability to place offending calls until a mutually agreeable resolution can be reached.
