3. MESSAGE TELECOMMUNICATIONS SERVICE

3.1. GENERAL

Message Telecommunications Service (MTS) applies to all long distance calls made between two or more rate centers that are furnished or made available by the Company over facilities within the state. MTS provides telecommunications beyond the local serving area. MTS charges cover the service furnished between the calling and called stations.

3.2. REGULATIONS

3.2.1. DESCRIPTION OF SERVICE

MTS is the furnishing of facilities for telecommunication between station lines in different local service areas in accordance with the terms, conditions, and rates specified in this Tariff. The Company does not undertake to transmit messages but furnishes the use of its facilities to its customers for communications.

3.2. REGULATIONS (CONT'D)

3.2.2. CLASS OF CALLS

Charges apply according to the class of call the calling party selects as defined below.

A. Dial Station

Dial Station charges will apply when the customer dials the desired telephone number without the assistance of a Company Operator and the call is billed to the calling number. This includes calls forwarded by call forwarding equipment.

The Dial Station class of service also applies when the Operator:

1. Records the calling telephone number for areas without automatic recording equipment.
2. Reaches the called telephone number because of trouble on the network or because dial completion is not available.
3. Places a call for a calling party who is identified as being disabled and is unable to dial the call because of that disability.
4. Reestablishes a dialed call when there is a service fault that interrupts a call after the called person has been reached.

B. Operator Services

Operator Service rates apply to customers subscribing to MTS Service who engage the Operator's assistance in the completion of MTS calls. A per-minute usage rate and/or a per-call service charge will apply to each Operator Services call.

3.2. REGULATIONS (CONT'D)

3.2.3. TIMING OF CALLS

- A. On Dial Station and Operator Station calls, the timing of a call begins when the calling and called stations are connected. Calls are timed in one-minute increments.
- B. On Person-to-Person calls the timing of a call begins when the calling person is connected to a specified person, station, or an agreed alternate.
- C. Chargeable time ends when the connection is terminated at any point.
- D. The timing of a call does not include time lost due to service faults or defects that are reported to the Company.
- E. MTS usage rates are applied on the basis of whole minute intervals. The billing interval is determined by rounding up partial minutes to the next whole minute.
- F. In cases where a calling plan is billed according to the time of day and a message begins in one price period and ends in another, the price for each minute is the price in effect at the beginning of each minute of usage, unless specified otherwise in a calling plan's service description.

3.3. OPERATOR SERVICES

3.3.1. OPERATOR ASSISTED SERVICES

A. Description of Service

Operator Assisted Service rates apply to customers subscribing to MTS Service who engage an Operator or a mechanized response system in the completion of MTS calls. A per-call service charge and per-minute usage rate apply to each Operator Services call. (C)

Customers who cannot physically dial a call may qualify for an Operator Assisted exemption, which provides the customer with operator assistance at a direct dialed rate without a service charge. No application or certification is required for this program; however, the customer must request this exemption.

Operator Station charges apply when calls are completed with the assistance of a Company Operator, except as specified for Person-to-Person calls.

Person-to-Person charges apply when the calling party specifies to the Operator a particular person to be reached, or a particular station, department, or office to be reached through a PBX attendant. After the called station has been reached, if the called party is unavailable and the calling party requests or agrees to speak to a party other than the party initially specified, the call is still billed as a Person-to-Person call. The calling party is responsible for identifying the party at the called station.

3.3. OPERATOR SERVICES (CONT'D)

3.3.2. DIRECTORY ASSISTANCE SERVICE

A. Description of Service

Directory Assistance Service is furnished upon customer request for assistance in obtaining listing information for listings that are outside the Company's local calling area or LATA/NPA serving area for the originating line. Customers will be charged for all requests including requests for listings that are not available or not found. This service will be provided by an Operator or a mechanized response system.

(C)
(C)

Directory Assistance charges apply on a per call basis, with a maximum of three requests allowed per call.

The Directory Assistance Service Charge will not be levied on an individual who affirms in writing to the Company that a visual or physical disability prevents them from using a telephone directory.

Upon receipt of the requested number the customer will be given the option of having the call completed to the requested number for an additional charge, as set forth in B.2, following. When a caller requests more than one number from Directory Assistance, call completion is offered only for the last number requested

Calls to Directory Assistance service and calls completed through Directory Assistance Call Completion service will be billed directly to the customer's account. Alternate billing options and operator services are not available.

3.5. BUSINESS LONG DISTANCE [1] (WITHDRAWN AS OF APRIL 29, 2008)

(C)

3.5.1. DESCRIPTION OF SERVICE

The Business Long Distance Calling Plan is provided to customers who subscribe to Business Local Service as specified in Comcast Phone of Pennsylvania, LLC, PA PUC Tariff No. 1, Section 9.4.

Customers will receive unlimited Dial Station calling within the Metro and Non-Metro areas, as described in Comcast Phone of Pennsylvania, LLC, PA PUC Tariff No. 1, Section 3.

For those customers who select the Business Bundle or the Business Bonus Bundle, the Intrastate rates per minute, as set forth in Section 3.5.4, will apply. Customers must be presubscribed to the Company for both Intrastate and Interstate long distance calling.

Customers who select the Business Basic or Business Reserve offers and presubscribe to the Company for IntraLATA and/or InterLATA long distance will also receive the rates in Section 3.5.4, following.

Usage and Service Charge rates for Interstate and International calls are specified in the Company's Service Guides located on the internet at <http://www.comcast.com/tariffs/>.

3.5.2. APPLICATION OF CHARGES

The Business Long Distance Calling Plan is subject to a minimum monthly usage charge, per call usage rates, and for certain call types, service charges on a per access line basis. Dial Station calls are timed utilizing an initial period of 30 seconds and additional periods of one second each, and will be priced to the nearest penny.

[1] Business Long Distance Service is grandfathered to existing customers of record as of March 25, 2003.

3.6. OPTIONAL CALLING PLANS (WITHDRAWN AS OF APRIL 29, 2008) (C)

3.6.1. LATA-WIDE CALLING PLAN

A. Description of Service

Residential customers located in LATA 234 who subscribe to the Integrated Offering or Local Only Service as specified in Comcast Phone of Pennsylvania, LLC, PA PUC Tariff No. 1, Section 9.1, may also subscribe to the LATA-Wide Calling Plan. This plan provides the customer with a 1000-minute block of time of IntraLATA long distance calling per monthly billing cycle. Additional IntraLATA long distance usage will be rated on a per minute basis as specified below. Customers who order the LATA-Wide Calling Plan must be presubscribed to the Company for IntraLATA long distance calling. (C)

The following types of calls do not apply toward minutes included in the LATA-Wide Calling Plan: Operator Assisted calls, Calling Card calls, calls to Information Service Providers, or calls to Toll Free Dialing numbers. Block-of-time usage is measured per billing cycle, based on all applicable usage on all lines associated with the account. Unused portions of the allowance will not be credited to a customer's account, carried over to another billing cycle, or transferred to another account.

Customers who subscribe to a Block-of-Time offer may also enroll in the LATA-Wide Calling Plan. All IntraLATA usage for these customers will be applied to the LATA-Wide Calling Plan block of time; Intrastate/InterLATA and Interstate usage will be applied to the Block-of-Time offer to which the customer is subscribed.
