A customer whose service has been discontinued for non-payment of bills for any telecommunications service will be required to pay all bills due the Company for telecommunications services or make other arrangements satisfactory to the Company and to re-establish credit before service is restored or any service started.

If service is established and it is subsequently determined that the customer or applicant is indebted to the Company for service previously furnished, the Company may suspend or terminate the current service until satisfactory arrangements have been made for the payment of the prior indebtedness.

2.4.2. BILLING AND COLLECTION

The customer is responsible for payment of all charges for equipment or facilities and services furnished by the Company to the customer.

A deposit may be held during the life of the service.

The fact that a deposit may have been made in no way relieves the applicant or subscriber from complying with the Company's regulations as to the prompt payment of bills or constitutes a waiver or modification of the regular practices providing for discontinuance of service for non-payment of any sums due the Company for service rendered.

Where available, Enhanced 911 has the ability to selectively route an emergency call to the primary E911 provider so that it reaches the correct emergency service located closest to the caller. In addition, the customer's address and telephone information will be provided to the E911 provider for display at the Public Service Answering Point (PSAP).
