

Email

- Get up to 7 email accounts for additional family members or for different online activities, such as shopping and newsletters.
- Enjoy a huge 10 gigabytes of storage for photos, files and other important communications.

Set Up Additional Email Accounts

Primary account holders can set up to six additional email accounts for other members.

- Go to **comcast.net** and click on My Account.
- Follow the easy steps to Create a Secondary Account.

Switch to Your New Email Address

Let others know about your new comcast.net email address, forward emails from other email accounts and more.

Go to comcast.net and search: **EASYCHANGE**

Try Out Extra Features

- Drag and Drop — Move emails from your inbox to folders by simply dragging them to where you want them to go.
- Right-Click Menus — Right click on an email for a menu of features including reply, forward, delete, and mark messages as read/unread.
- Photo Preview — Mouse-over a photo attachment to see a preview of the photo.
- Auto complete — Type an email address and we'll finish it for you, as long as the address is in your address book.
- Universal Address Book — Import contacts from your other online address books.

Remember, when necessary, Comcast will send important service related emails to your Comcast.net email account.
