

ONLINE PROTECTION

Comcast takes your online security and identity protection seriously. We help keep your family safe from growing online threats with the highly acclaimed McAfee® Security Suite. It's a \$120 value included at **no additional charge** and it's good for up to 7 PCs in your household.

This comprehensive tool includes must-have software like virus protection, firewall, parental controls and much more. You also can visit the comcast.net Security channel for the latest alerts and information on how to protect you and your family.

McAfee® Security Suite

- Safeguard your identity — easily protect and conceal your identity and other personal information from hackers.
- Protect your family online — supervise, control and limit Internet content and availability for the safety of your children.
- Stop viruses — simplify virus protection with security options that block and remove viruses before they reach your PC.

To find out more go to comcast.net and search: **SECURITY**
To get McAfee now, go to www.comcast.net/security and click the 'Get it Now' button.

Comcast Toolbar

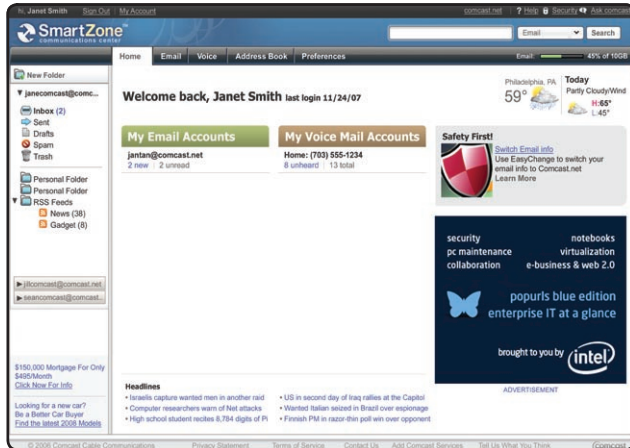

For easy one-click access to search, email, weather and more. By removing spyware, the Comcast Toolbar also helps computers run faster.

- Spyware scan — remove harmful files from your PC.
- Anti-phishing — know which Web sites are trustworthy and those you should avoid.
- Pop-up blocker — eliminate annoying pop-up ads.

EVERYTHING WITHIN REACH

At comcast.net, you will find it simple to stay connected to what's important to you as well as to access tools to make life easier. As a customer, you receive the added benefit and convenience of one place to go for comcast.net email, Comcast voice mail, your address book and more.

SmartZone™ Communications Center

With SmartZone, access your communications in one place. Email, voice mail and a universal address book are grouped in one easy-to-use online message center at **comcast.net**.

Go to **comcast.net** and search: **SMARTZONE**

Email

- Get up to 7 email accounts for additional family members or for different online activities, such as shopping and newsletters.
- Enjoy a huge 10 gigabytes of storage for photos, files and other important communications.

Voice Mail

- Listen to your voice mail right from your computer.
- Forward voice mail to others by email, listen to messages in any order, review call history and more.

Universal Address Book

- Combine your contacts from multiple online address books, email accounts, PCs and mobile phones into one simple location.
- Organize dates, appointments and special events in the calendar. Set event reminders and send eCards for everyday or special occasions.

Not all features, including McAfee, are compatible with Macintosh systems.

Set Up Additional Email Accounts

Primary account holders can set up to six additional email accounts for other members.

- Go to **comcast.net** and click on My Account.
- Follow the easy steps to Create a Secondary Account.

Switch to Your New Email Address

Let others know about your new comcast.net email address, forward emails from other email accounts and more.

Go to comcast.net and search: **EASYCHANGE**

Try Out Extra Features

- Drag and Drop — Move emails from your inbox to folders by simply dragging them to where you want them to go.
- Right-Click Menus — Right click on an email for a menu of features including reply, forward, delete, and mark messages as read/unread.
- Photo Preview — Mouse-over a photo attachment to see a preview of the photo.
- Auto complete — Type an email address and we'll finish it for you, as long as the address is in your address book.
- Universal Address Book — Import contacts from your other online address books.

Remember, when necessary, Comcast will send important service related emails to your Comcast.net email account.

ENJOY THESE FEATURES

Comcast.net is the one place to go for everything from your email, what's on TV, free game downloads, to the latest music and more.
